

GREENPEACE

Greenpeace International's Web Strategy

A Collaboration between We Are Open Co-op and Comms

Overview

1. What we have done so far
2. Initial findings
3. Next steps

1. What we have done so far

What we have done	
Onboarding 	Reviewed Greenpeace documents to wrap our brains around the project
Stakeholders Interviews 	- Members of We Are Open interviewed the: - Campaign Portfolio Managers - Global Comms Hubs Managing Editors - Global Comms Hubs Content/Multimedia Editors
Contextual Framework 	- Created a contextual framework from the interviews, which were synthesized to identify themes and categories. - A SCOT (Strength, Challenge, Opportunity, Threat) lens was used to identify areas requiring attention, examples of good practice and where further research or activities on the part of GPI would be necessary or beneficial
Refined initial findings 	- Extrapolated key themes from the interviews - Developed categories and sub-categories - Filtered by categories and sub-categories to draw out recommendations

2. Initial findings

AUDIENCE

Clarity on...

What the *current* GPI audience
NEEDS

+

The audience that *GPI*
WANTS

= **CLARITY** for

STRATEGY

- Engagement
- Education
- Both

RESOURCES

- Roles
- Responsibilities
- Capacity

VOICE

- Informed
- Stance
- Open
- Tone

CONTENT

- Design
- Pathways
- Process
- Types

PLATFORM

- Functionality
- Ownership

STRATEGY

What is the focus and purpose?

- **Engagement?** *Engaging with audience and prompting action?*
- **Education?** *Deep-dive and stance on subjects?*
- **Both / Other?**

Clarity required for **CONNECTION**

To audience, as well as to other strategies and channels

RESOURCES

Who has decision-making authority?

- **Roles.** *Curation, content weaving, newsdesk style decision-making authority*
- **Responsibilities.** *Cascading editorial rights*
- **Capacity**

Clarity required for **OWNERSHIP**

Of content and website

VOICE

What is the tone?

- **Informed**
- **Stance.** *On key subjects and topical news*
- **Open.** *Reflective of diverse voices*
- **Tone.** *Suggestions include being more lighthearted, radical, show a sense of humour*

Clarity required for **AUDIENCE**

Especially if wish to appeal to a younger, more diverse audience

CONTENT

What is the purpose of the GPI site and content?

- **Design.** *Clarity of purpose and role of GPI site required*
- **Pathways.** *Clarity of pathways between GPI website to other channels and NRO sites required*
- **Process.** *Sign-off process results in lack of topical content*
- **Types.** *Lack of variety and dynamic content stifles creativity*

Clarity required for **PURPOSE**

So comms personnel can create relevant, topical content

PLATFORM

Who decides what developments are required?

- **Functionality.** *Comms teams feel disconnected from decisions on Planet 4 development*
- **Ownership.** *Better communication between development and comms team would aid sense of ownership*

Clarity required for **EMPOWERMENT**

So comms personnel can fully leverage creative skills

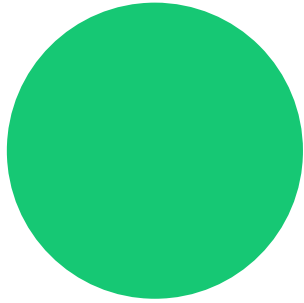

3. Next steps

 **Refine and cross-reference** — the themes that have emerged from stakeholder interviews with other data and pre-existing guidelines

 **Deliver** — a report of findings, contingencies and recommendations

 **Define** — a set of hard and fast rules*

*Depending on enough data being available and decisions having been made
